

**East & Southeast Asia :: Cambodia**

**Introduction :: Cambodia**

**Background:**

Most Cambodians consider themselves to be Khmers, descendants of the Angkor Empire that extended over much of Southeast Asia and reached its zenith between the 10th and 13th centuries. Attacks by the Thai and Cham (from present-day Vietnam) weakened the empire, ushering in a long period of decline. The king placed the country under French protection in 1863, and it became part of French Indochina in 1887. Following Japanese occupation in World War II, Cambodia gained full independence from France in 1953. In April 1975, after a five-year struggle, communist Khmer Rouge forces captured Phnom Penh and evacuated all cities and towns. At least 1.5 million Cambodians died from execution, forced hardships, or starvation during the Khmer Rouge regime under POL POT. A December 1978 Vietnamese invasion drove the Khmer Rouge into the countryside, began a 10-year Vietnamese occupation, and touched off almost 13 years of civil war. The 1991 Paris Peace Accords mandated democratic elections and a ceasefire, which was not fully respected by the Khmer Rouge. UN-sponsored elections in 1993 helped restore some semblance of normalcy under a coalition government. Factional fighting in 1997 ended the first coalition government, but a second round of national elections in 1998 led to the formation of another coalition government and renewed political stability. The remaining elements of the Khmer Rouge surrendered in early 1999. Some of the surviving Khmer Rouge leaders have been tried or are awaiting trial for crimes against humanity by a hybrid UN-Cambodian tribunal supported by international assistance. Elections in July 2003 were relatively peaceful, but it took one year of negotiations between contending political parties before a coalition government was formed. In October 2004, King Norodom SIHANOUK abdicated the throne and his son, Prince Norodom SIHAMONI, was selected to succeed him. Local elections were held in Cambodia in April 2007, with little of the pre-election violence that preceded prior elections. National elections in July 2008 were relatively peaceful, as were commune council elections in June 2012.

## Economy :: Cambodia

### Economy - overview:

Since 2004, garments, construction, agriculture, and tourism have driven Cambodia's growth. GDP climbed more than 7% per year between 2010 and 2013. The garment industry currently employs more about 400,000 people and accounts for about 70% of Cambodia's total exports. In 2005, exploitable oil deposits were found beneath Cambodia's territorial waters, representing a potential revenue stream for the government, if commercial extraction becomes feasible. Mining also is attracting some investor interest and the government has touted opportunities for mining bauxite, gold, iron and gems. The tourism industry has continued to grow rapidly with foreign arrivals exceeding 2 million per year since 2007 and reaching over 3 million visitors in 2012. Cambodia, nevertheless, remains one of the poorest countries in Asia and long-term economic development remains a daunting challenge, inhibited by endemic corruption, limited educational opportunities, high income inequality, and poor job prospects. Approximately 4 million people live on less than \$1.25 per day, and 37% of Cambodian children under the age of 5 suffer from chronic malnutrition. More than 50% of the population is less than 25 years old. The population lacks education and productive skills, particularly in the impoverished countryside, which also lacks basic infrastructure. The Cambodian Government is working with bilateral and multilateral donors, including the Asian Development Bank, the World Bank and IMF, to address the country's many pressing needs; more than 50% of the government budget comes from donor assistance. The major economic challenge for Cambodia over the next decade will be fashioning an economic environment in which the private sector can create enough jobs to handle Cambodia's demographic imbalance.

### **Transnational Issues :: Cambodia**

---

#### **Disputes - international:**

Cambodia is concerned about Laos' extensive upstream dam construction; Cambodia and Thailand dispute sections of boundary; in 2011 Thailand and Cambodia resorted to arms in the dispute over the location of the boundary on the precipice surmounted by Preah Vihear Temple ruins, awarded to Cambodia by ICJ decision in 1962 and part of a UN World Heritage site; Cambodia accuses Vietnam of a wide variety of illicit cross-border activities; progress on a joint development area with Vietnam is hampered by an unresolved dispute over sovereignty of offshore islands

#### **Trafficking in persons:**

**current situation:** Cambodia is a source, transit, and destination country for men, women, and children subjected to forced labor and sex trafficking; Cambodian men, women, and children migrate to countries within the region for legitimate work but are subsequently subjected to sex trafficking, domestic servitude, debt bondage, or forced labor; the inability to understand formal obligations, read contracts, or pay processing fees, and inadequate government regulatory oversight renders some Cambodian migrant workers vulnerable to such exploitation; poor Cambodian children are subject to forced labor, including forced begging in Thailand and Vietnam; Cambodian and ethnic Vietnamese women and girls are trafficked from rural areas to urban centers for sexual exploitation; Cambodian men are the main exploiters of child prostitutes, but men from other Asian countries, the US, and Europe travel to Cambodia for child sex tourism

**tier rating:** Tier 2 Watch List - Cambodia does not fully comply with the minimum standards for the elimination of trafficking; however, it is making significant efforts to do so; the government has prosecuted and convicted fewer trafficking offenders and identified fewer victims than in the previous year; corruption continues to impede anti-trafficking endeavors; authorities systematically refer identified victims to NGO shelters, which provide the majority of services but lack long-term care services, making victims,

particularly children, vulnerable to re-trafficking; the government has established a migration working group within its anti-trafficking committee to better address the exploitation of Cambodian workers abroad, but laws governing migrant workers abroad remain weak (2013)

**Illicit drugs:**

narcotics-related corruption reportedly involving some in the government, military, and police; limited methamphetamine production; vulnerable to money laundering due to its cash-based economy and porous borders
