GREAT WEST VAN

YOUR PASSPORT TO ADVENTURE

the **future** is here!

What if you could own a compact fully equipped motorhome that handles like a car, has all the amenities of a 36' motorhome and manages **22-24 mpg!** Sounds like a dream? Well maybe **dreams do come true.** Introducing the new **Sprinter Legend** from Great West Vans. A careful blend of luxury, function and style, brought together with our trademark conversion innovations to produce a stunning new RV.

New From Great West Vans
THE SPRINTER LEGEND
Powered by Mercedes Benz

Wrap Yourself In Luxury

You've been waiting for the day to arrive when you could leave the world behind and go off on your adventure. Why not enjoy that journey in the lap of luxury? You'll find our attention to luxurious detail in the wood dashboard treatments, leather seats, power electric rear sofa bed and elegant window treatments, moldings and trim.

travel

in style and luxury

Superior Ride & Handling

The advanced European designed chassis powered by **Mercedes Benz** provides all the features and comfort of a luxury automobile with the handling characteristics to match. With the security of rack and pinion steering, comfort of independent front suspension and tight 46.9 foot turning radius you'll have to remind yourself you're driving a motorhome.

Power To Spare

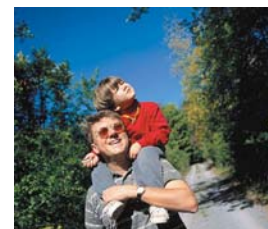

Under the hood of the Legend is a powerful yet economical 2.7 litre, 5 cylinder, turbo charged diesel. The engine puts out 154 Hp and an astonishing 243lb ft of torque. Power gets to the wheels through a 5 speed automatic transmission with Overdrive. The console mounted "tap" shifter allows you to shift manually through the gears for proper gear selection while towing with an Overdrive lock-out feature.

Comfort & Safety

At Great West Vans your safety is our top priority, which is why we are proud to partner with Mercedes Benz, renown the world over for their advances in vehicle safety. The Sprinter Legend features driver and passenger side airbags, four wheel anti-lock disc brakes with large windows and side mirrors for superior visibility. Climate and stereo controls are mounted in the large center console for easy access from the driver or passenger side. As in all Great West Vans the Legend also comes standard with Smoke, LP Gas, Carbon Monoxide detectors and an on-board fire extinguisher in the kitchen.

designed for **your life**—today.

Two Zone Floorplan

The "two zone" floorplan concept creates an "at home" feeling with functionally separate sleeping and dining areas in one compact, yet spacious RV. The rear bed area is flexible with the choice of a fixed King bed with a 6" mattress, a tri fold sofa-bed or the option of twin single beds for your convenience. The front zone offers even more flexibility with our unique third seat behind the driver. If you prefer to leave your bed down while traveling you can simply swivel the front seats around to create a comfortable dinette at the front of the coach.

Abundant storage throughout

The Sprinter Legend features 11 cabinets along the ceiling and a hanging closet behind the bathroom for ample storage. In rear sofa models the sofa can be slid ahead for a large rear storage area while traveling. In the fixed bed and twin bed models there is added storage underneath the beds that is accessible from both inside and outside the coach. If you don't need extra seating the area can be used for extra storage. For extra hanging space simply order the optional extra closet cabinet to replace the third seat behind the driver.

The bathroom in the Sprinter further demonstrates the creativity of our engineering team. The bathroom takes up very little floor space and offers full privacy with its expandable bi-fold door design. The bathroom houses a flush toilet, standup shower and our new slide out vanity. The vanity hides out of the way, inside the wall when not in use to create a very spacious bathroom and can be pulled out easily when needed.

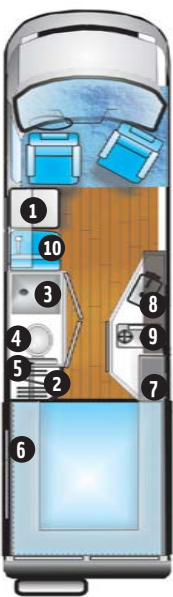

Sprinter Legend

standard feature and personal choice options

SPRINTER LEGEND

1. Table
2. Closet
3. Shower
4. Toilet
5. Slide out vanity

-  Chianti

Cabinet Options

- Euro-White
- Cinnamon Maple

Choose from 2 roof profiles

Classic or Classic Supreme

The "Classic" delivers a more traditional Class "B" look.

With its lower, more aerodynamic top the Classic is a great daily driver and becomes a self contained motorhome for weekends and holidays. The lower profile design and our optional hidden air conditioner make the Classic the van motorhome of choice in exclusive communities where RV's are prohibited.

The Classic Supreme offers 6'4" of interior height to provide the most head room and living space of any Class "B" motorhome on the market today.

The higher roof allows for taller upper storage cabinets throughout and provides enough room for an optional pull out bunk bed over the cab. The upper bunk is something you'll only find in a Great West Van, when not in use the bed provides a cavernous 35 cubic feet of additional interior storage space.

Industry Leader in Innovation

Slide-out rooms

Great West Vans is proud to be the first Class "B" manufacturer to offer Slide-Out rooms. Slide-Out rooms offer a modern answer to the need for more interior space without widening the entire van body. Building within the original walls of the van allows us to maintain the structural integrity, original ride and handling characteristics of the vehicle. Every aspect of the slide was designed with your comfort and convenience in mind. All Slide-Out models feature:

- A 12 volt drive mechanism to provide trouble free movement at the touch of a button.
- A rugged steel frame work to insure stability.
- A flush fit design, with triple water seal protection.
- An attractive awning which deploys and retracts automatically with the slide-out.

With almost 30 years of experience and owner feedback to draw upon, Great West Vans is able to deliver all the features you expect in a Class "B" motorhome. What sets a Great West Van apart are the countless features and thoughtful touches you won't find anywhere else. Only a few of our most popular, innovative and exclusive features are shown here, visit your local dealer or contact the factory to find out what our innovative engineering can do for you.

Our exclusive optional upper bunk offers 2 extra sleeping positions or a large interior storage space.

Running boards house 3 separate basement storage compartments as well as a large slide out golf club drawer.

Ingenuous sink cover with integrated cutting board slides out to increase counter space for food preparation.

Swivel mount, 15" flat screen TV allows for easy viewing from the front or the rear of the coach.

flexible and elegant

"We have been proud owners since 1998. What a great way to travel and see the country." Wilf and Ann (British Columbia, Canada)

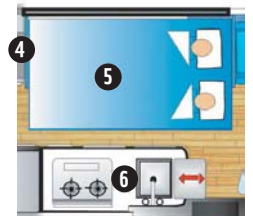

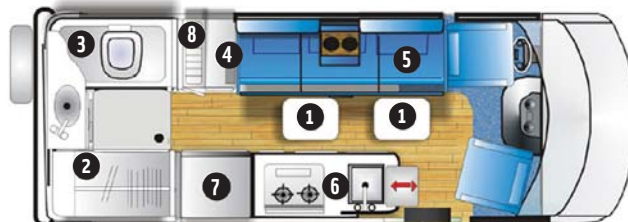

Side Sofa Floorplan

The Side Sofa (SSF) is an open, spacious floor plan and offers comfortable seating for 5, abundant storage, a fully appointed galley and a full size rear bathroom. In the center of it all is our unique "roll over" sofa. The engineering of the sofa is designed to take less floor space than other sofa designs. This ingenious design provides an area behind the backrest for convenient storage of bedding during the day. The roll over sofa offers seating for up to 3 with seat belts in all seating positions and a deluxe pull down drink tray in the middle. The sofa makes into a generous double bed (73" x 50") and underneath the sofa is an enormous drawer (50" x 20" x 10") that uses ball-bearing slides for easy access. **The SSF Classic Supreme** has always been one of the most popular models for couples looking for more storage, more interior living space and a complete easy access bathroom.

The BDF has more of everything you want in a van motorhome. The BDF has a large private full height bathroom, complete with flush toilet, shower, vanity, medicine cabinet with makeup lights and a large hanging closet. All Great West Vans come with the most fully appointed galley in any van motorhome. The standard features include a 3 way fridge (raised off the floor in the BDF), 2 burner stove with cover, microwave oven and a recessed sink with pull-out extension. All these features are conveniently located at your fingertips on the same side in the galley area. Galley conveniences also include the microwave, and coffee maker.

living at it's **best!**

Booth Dinette Floorplan with Optional Slide-Out

The addition of our optional Slide-Out room to our Booth Dinette (BDF) floorplan makes a great van even better.

The slide out creates a larger more comfortable area for dining which can then be converted to become a large double bed (81" x 51"). The slide allows the bed to extend outward from the van leaving the interior aisle clear for easy access throughout the motorhome, even with the bed in place.

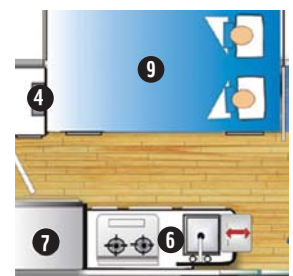

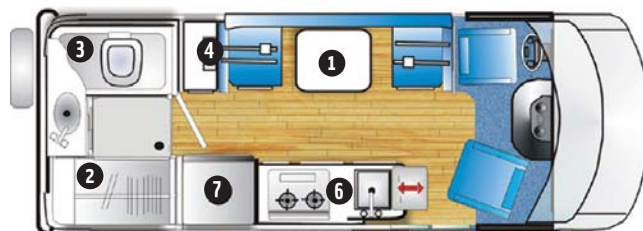

Booth Dinette Floorplan

The Booth Dinette floorplan (BDF) is winner when it comes to interior storage. The BDF interior storage includes large upper and lower cabinets. The non-slide model comes with a handy pull-out pantry. The two person dinette comes equipped with seatbelts for traveling and converts into a large double bed (75 x 50). All front seats recline, swivel and have lumbar support. The BDF offers the most interior living space of any Class "B" on the market.

BDF and SSF Legend

1. Table
2. Closet
3. Shower/Toilet/Basin
4. TV/DVD
5. Roll-over sofa
6. Galley area (kitchen sink with slide out cutting board, stove)
7. Fridge with coffee maker and microwave above
8. Slide-out pantry (on SSF model only)
9. Optional slide out.

more seating and sleeping choices

"We camped for 6 straight nights with three kids and two adults and sleeping was very comfortable for all of us with the bunk and single beds." Brian (Orlando, USA)

Mid galley floorplan

The Mid Galley floorplan (MGF) is our most flexible model offering choices of 2, 3 or 4 captains chairs plus the choice of a rear dinette or electric sofa option. This means comfortable seating for up to 7 adults. For your safety Great West Vans uses only steel frame seating and all secondary seats feature shoulder or lap belt restraints.

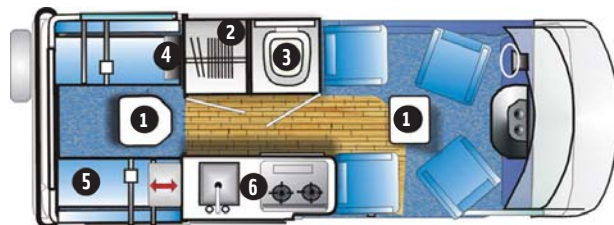

Need more room to stretch? The MGF can be equipped with an optional Rear Slide-Out Room. Our bed extension slides out to create a bed almost 7.5' long when parked but closes back to original size for travel. You deserve it all and the MGF delivers!

Note: The electric sofa is not available in models equipped with the rear slide-out option.

Mid Galley Legend

1. Table
2. Closet/Shower area
3. Toilet
4. Flatscreen TV & DVD
5. Dinette or optional sofa
6. Galley area (kitchen sink with slide out cutting board, stove, fridge, coffe maker, microwave)
7. Optional additional cabinetry (closet behind driver & counter height cabinet behind passenger)

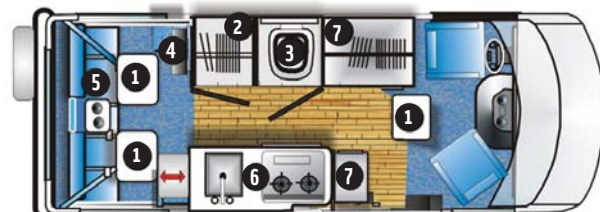

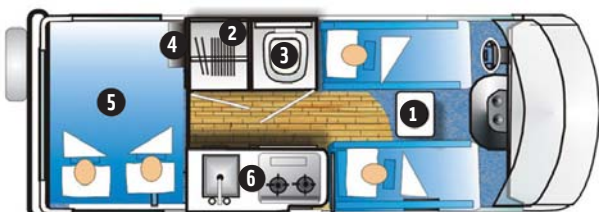

than any other **class "B"**
on the market.

Also available in the MGF is a rear electric sofa offering comfortable seating for 3 adults. The outside positions include shoulder belts while the center position features a lap belt. A solid wood drink holder can be folded down for travel convenience.

The MGF has more sleeping options than other models. The rear dinette or optional sofa can be converted to become a comfortable double bed (74" x 50") for a good nights rest. Plus the four chairs up front can be converted to make 2 single beds. In addition if the MGF is purchased in the full height Supreme model, a double upper bed can be added for a total of six sleeping spaces. Passenger comfort is not all the MGF model offers, it includes all the same standard equipment as all other floorplans with an abundance of storage. From the full height closet to the overhead cabinets and storage under the dinette or sofa, every bit of space is usable. Need more storage? The MGF is available with cabinets to replace one or both of the secondary captain seats. Use four seats for passenger comfort around town and replace them with extra storage cabinets before leaving for a long trip. You can also close the bathroom divider doors for a private changing area or separation of sleeping areas.

You're always **at home** in your Great West Van

Whether you need two twin beds, one double bed or one king size bed **The Twin Bed Model (TBF) can do it all.**

Twin Bed floorplan

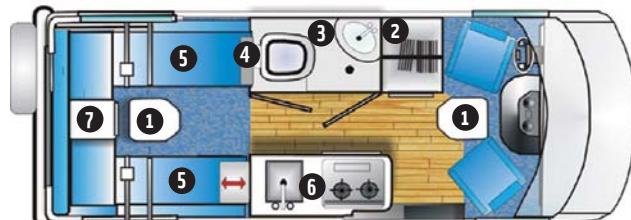

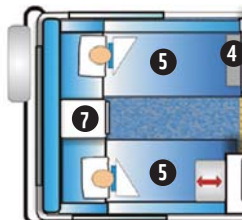

The TBF makes two single beds (32" x 70") and (72" x 32"), or a double bed (75" x 48"), or simply remove the night table and you get a king size bed (74" x 72"). The twin beds when not in the sleeping position create a rear dinette for dining, watching TV or E-mailing the grand-kids. The TBF is the ideal motor-home for the couple that wants flexibility in seating and sleeping arrangements. In addition to its flexibility the TBF still includes the fully appointed galley Great West Vans is famous for. As in all Great West Vans the front seats can be swiveled towards each other creating a clever little dinette in the front of the coach. In the TBF you can use this front dinette for your eating area which allows you to leave your bed made up in the rear sleeping area.

"I feel like I'm on vacation all the time! I am proud of the quality and comfort of my Great West Van." Mary (Arcadia, USA)

Twin Bed/King Bed Legend

1. Table
2. Closet
3. Shower/Toilet/Basin
4. TV/DVD
5. Twin Beds or Sofa or Fixed King Bed
6. Galley Area (kitchen sink with slide out cutting board, stove, fridge, coffee maker, microwave)
7. Night Table

More Choices with

Great West Vans

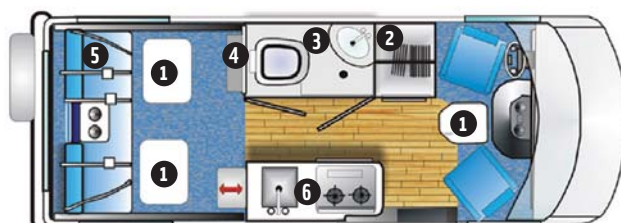

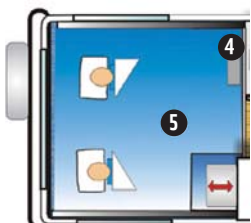

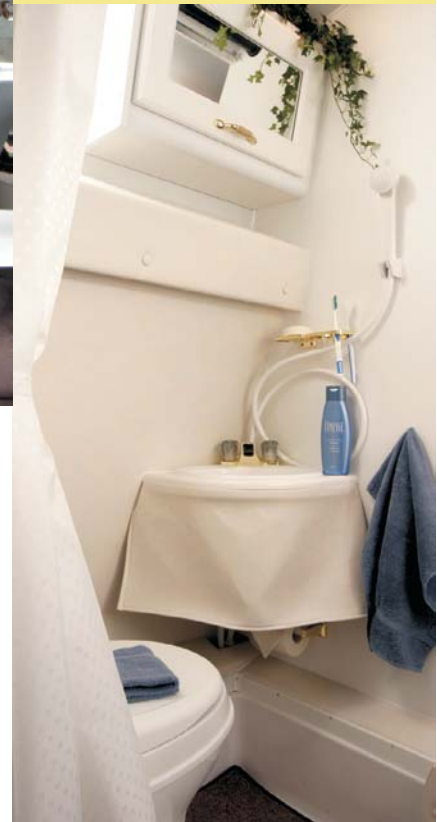

The **uniqueness of the King Bed** floorplan is found in the abundance of additional storage.

King Bed Floorplan

Our newest Ford model, the King Bed floorplan (KBF) incorporates all of the best ideas of the Twin Bed model but with its own distinctive features. In the KBF features the same galley and bathroom area of the Twin Bed but with even more storage and the option of either a fixed 6" mattress or a tri-fold electric sofa for a large (74" x 74") rear bed. In the Classic roof design the KBF offers seating for 5 and sleeping for 2. The Classic Supreme with the addition of the overhead pull out bunk bed offers sleeping for 4. The King Bed comes standard with a luxurious 6" thick mattress in the rear. With the fixed mattress you have a large storage area below the bed that is accessible from both inside and outside the coach. The optional tri-fold electric sofa is popular for those who are looking for a large bed and the ability to carry extra passengers. The sofa can also be slid ahead 29" to provide a large rear storage area. The KBF also provides room for a table up front, simply swivel the captains chairs to face each other and you've created a dinette in the front of the coach. With a versatile floorplan, large beds and tons of interior and exterior storage space the King Bed floorplan is sure to become a popular choice.

Both the TBF and KBF feature a multi-functional bathroom designed to provide privacy and flexibility. It can be used as a private bathroom or the doors can be folded out to create a more roomy bathroom or a large private change area.

Time tested experience

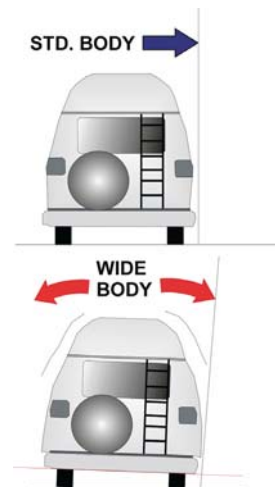

Since 1976 Great West Vans has been providing our owners with the best engineered Class "B" Motorhomes on the market. Our commitment to use only the highest quality components, advanced manufacturing techniques, and skilled craftspeople is evident the first time you step inside a Great West Van. We've seen a number of class "B" manufacturers come and go over the years, the key behind our longevity and success is our attention to detail, we know you'll feel it too, the minute you get inside.

Original Steel Body

Although Great West Vans was the first manufacturer to develop a wide body Class "B" motorhome in 1991 we have since moved beyond that concept. Widening the body without a wider wheel spacing below supporting it affects vehicle handling causing wallowing. Furthermore we found that taking away the steel body and replacing it with fiberglass sacrificed the overall strength of the vehicle. Instead of widening the body we have focused on developing more creative ways to increase the usable space inside a Class "B" motorhome such as slide-outs.

Standard body navigates drive-thru's and parking lots with ease.

Maintaining the original width provides a more stable ride.

Your safety is our primary concern.

At Great West Vans we are extremely proud of our excellent safety record. We subject our vans to a battery of tests to ensure the safety and protection of you and your family. Great West Vans is the only class "B" manufacturer to use a "Double Walled, Double Strength", insulated roof. This unique roof design provides twice the strength of single shell models allowing you to drive with confidence knowing your Great West Van will protect you in the unlikely event of an accident. All aspects of the vehicle are tested to ensure your safety, including seat and restraint system tests, roof testing and even crash testing of the entire van. Each unit is equipped with Smoke, Carbon Monoxide, LP gas detectors and a fire extinguisher. All Great West Vans meet or exceed FMVSS and D.O.T. safety standards for you and your family's piece of mind.

Great West Vans have been designing and building quality Class "B" R.V.s since 1976.

Mission Statement:

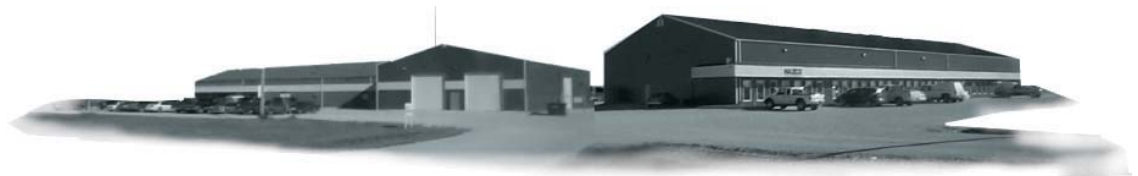

"To design and build innovative recreational vehicles that provide our customers with a truly enjoyable R.V. Experience and the best value of R.V. in it's class."

Ambassador Club & Rewards Program

Everyone who joins our Great West Vans owner family is invited to become a member of our "Ambassador Club". When you enroll in the club you'll receive a welcoming letter from the President of Great West Vans, a personalized Ambassador Card and a Free Gift. You'll also become a member of our Ambassador Club Rewards program. There is no better advertising than word of mouth, our growth and success over the years is thanks in large part to our loyal owners who often tell their friends and family about the enjoyment they get from owning a Great West Van. Members of the Ambassador Club receive a reward for every friend or family member or referral who purchases a Great West Van as a result of their referral. Membership in the club and rewards program is free, so ask your dealer or call the factory today for full details.

Interested in getting a behind the scenes look at what goes into the creation of a Great West Van?

Ask your dealer about our factory tours and even how you can have your trip paid for by Great West Vans!

Warranty Coverage

When you choose Great West Vans your purchasing more than just a motorhome, your purchasing piece of mind. With almost 30 years of experience going into every van we make, you can rest assured that your Great West Van will provide you with years of trouble free, driving pleasure. It's also comforting to know that whether your halfway across town or halfway across the country, there is an authorized service center close by and assistance is just a phone call away.

Ford Chassis Warranty Coverage: 3 years or 36,000 MI / 60,000 KM

Sprinter Chassis Warranty Coverage: 7 years or 100,000 MI / 160,000 KM

Great West Vans Warranty

The warranty period for Great West Van manufactured components and craftsmanship is 3 years or 36,000 miles (60,000 KM). Appliances and accessories not manufactured by Great West Vans are limited to the warranty offered by the original manufacturer. See your dealer for additional information on warranty coverages.

VIP Travel Care

With our VIP travel care program Great West Van owners are assured of emergency conversion service virtually anywhere in the USA or Canada. See your dealer for further details.
