TO MY READERS

An announcement that my lesson for the day would be Spanish dishes, invariably brought record-breaking crowds in any city in the United States, and a demand for recipes induced me to search for the best to be found.

My three years' stay in California has enabled me to learn how to prepare the very best dishes directly from the natives, both Mexican and Spanish.

It is not generally known that Spanish dishes as they are known in California are really Mexican Indian dishes. Bread made of corn, sauces of chile peppers, jerked beef, tortillas, enchiladas, etc., are unknown in Spain as native foods; though the majority of Spanish people in California are as devoted to peppery dishes as the Mexicans themselves, and as the Mexicans speak Spanish, the foods are commonly called Spanish dishes.

When made properly, there is great merit in this class of foods and I have endeavored to select the very best recipes, and have revised them into correct proportions and practical methods of preparation.

Many of the dishes are very delicious and will be found of great value for luncheon, entries, and a zest to various menus, and especially useful to those who desire to cater to the public. Please note the classification of sauces and dressings which eliminates a repetition of the same sauce in different dishes.

Wishing you as much pleasure in the preparation and serving of this collection of recipes as I have had in compiling them, I am,

Very sincerely yours,
BERTHA HAFFNER-GINGER.

MEXICAN WOMAN MAKING TORTILLAS

Y. Y. Perez, Public Bakery, Sonora Town, Los Angeles. They refuse to make them any other way and take the same pleasure in making a perfectly thin and round tortilla that puffs up nicely while cooking, as you and I do in trying to make a beautiful loaf of bread. Truly the heart of women are the same the world over. Deep down, no matter what the environment, the desire is always there, to be "loaf givers."

{43}

Tortillas

Modern Way to Prepare Corn for Tortilla and Tamales

Put one gallon of shelled corn in enough water to cover; dissolve one-half cup lime in a little water and add to cover; boil fifteen or twenty minutes; remove from fire, pour off first water and add fresh cold water; rub with hand to remove husk. Rinse in another water and it is ready to grind. Don't wash too much or it will not be pasty enough to make tortilla.

Tortillas No. 2

Another way and liked best by some people: Add to the corn dough (masa) rounding tablespoon of lard to four cups dough, little salt.

Tortillas No. 3

Still another way: Corn meal and coarse flour half and half wet to stiff dough, salt and lard.

Tortillas No. 4

{44}

But the best to my taste is the hominy or corn ground into a smooth paste, three cups corn, one of flour, two tablespoons melted lard, teaspoon salt, cook on ungreased iron, have ready enough hot salted lard to dip tortilla in just before you add filling to make Enchiladas. When flour is used, dough may be rolled out on a board, a small pie tin placed on and cut round the edge to form cake; lift up with pancake turner.

How to Shape Tortillas

Take piece of dough size of biscuit and press with hand into cake size of small pie plate, toast on top of stove moderately warm. Do not brown.

Chile Pulp and Sauces for all Recipes

Chile peppers are the base of all Mexican and Spanish dishes, and I have simplified the various recipes by making a list of different ways to make the pepper pulps and sauces. Please note that they are numbered and named, referred to by number and name in the recipes. Original way to prepare chile for sauce is to remove seed and toast on coals, top of stove or in oven, till they puff and look tender; and mash through sieve or colander; add water or tomatoes for right consistency; scalding is the quickest.

No. 1, Red Chile Sauce, for Enchiladas or Tamales, etc.

Split red chile pepper, remove all seeds and veins, soak several hours in water, pour off, pour on boiling water, pour off and repeat again, the last water just enough to cover peppers when pressed down. Mash in this water and press through sieve, melt one-half cup pure lard, add heaping tablespoon

flour, brown and add three cups of chile pulp, salt to taste, cook very slowly half hour.

No. 2, Green Chile Sauce for Enchiladas or Tamales, etc.

{60}

Split, remove seeds and veins from green chiles and boil in little hot water till tender; mash, press through sieve, melt one-fourth cup lard, add two tablespoons flour, teaspoon salt, brown just a little, add three cups green pulp, cook slowly half hour.

Prepared Spanish Sauce

Take equal parts red and green chile peppers, same amount green and red sweet peppers, split, remove seed from all, soak in water, drain, add enough water to barely cover, boil tender, mash in water, press through sieve, heat half cup olive oil, fry in it one-half cup onion, one-half parsley, three garlic buttons, tablespoon aregano, two cups raw tomatoes, six cloves, two cups of the pepper pulp, salt to taste, cook, strain, may heat and bottle larger quantities, very fine.

{61}

{62}

{63}

Pickles and Relishes

Spanish Pickle

Heat quart apple vinegar, add tablespoon salt, twenty cloves, two tablespoons aregano, two of cominos, boil five minutes, let cool, pour over small red and green chiles, wild tomatillos (wild tomatoes) and put up in jars.

Green Chile Relish, No. 1

Remove seed and veins from twelve large green chiles, soak over night in water with little salt in it, chop and measure one quart green tomatoes, chop chiles, one cup cucumber, 1 garlic button, cook altogether until a pulp, press through sieve, add one-half cup lemon or lime juice, tablespoon salt. Fine over cold meats, fish, oysters, eggs, croquettes, roast pork, mix with apple sauce; serve on fried apple fritters.

Red Chile Relish, No. 2

Make same as green, substitute ripe tomatoes and red chiles. You may bottle, seal tightly each sauce; will keep indefinitely.

Sprinkle with salt and bits of butter; set back in oven and brown but not too deeply.
